CREATURE CREATOR

An age scaling game, players draw a small hand from a single deck of cards. They create new creatures using body parts from a selection of the greatest animals in the world drawn in lively cute art. At 4 years old, the game ends when the deck is done and completed creatures are counted. At 6-8 yo, players lose points for semi-created creatures. At 9 the body parts have unique values. And at 12 years old, a few additional cards are added (like trade or go twice) making the game an adult level strategic game.

\$25.00

This game is part of our Education Coalition. It will be on **KICKSTARTER** later this year.
